

The soft air massage and chromotherapy bathtubs in this collection are the epitome of elegance and sophistication in the wellness field. Entice your senses with the look, feel and performance of this bathroom highlight. The unique thickness of this reinforced acrylic bathtub incorporates the Soft-Air massage system, an exclusive hydrotherapy feature that fills the water with gentle bubbles that mimic the size and texture of champagne bubbles. The Water-Chromo water chromotherapy system guarantees an even deeper state of relaxation thanks to the gentle stimulation of the senses with colour. The bath incorporates a deck-mounted thermostatic tap set with an easily accessible handheld shower that remains discreetly concealed when not in use so that the overall linear purity of the bathroom suite is not marred by unnecessary visual elements. This model is filled through an innovative cascade of water under one side of the perimeter, while the ingenious Hide-Flow system acts as a concealed overflow. The smooth, ergonomic design of this bathtub also includes a soft headrest, handles for greater safety and comfort in the self-care ritual, and a tactile control panel embedded in the acrylic for enabling or cancelling the wellness functions.

The bath is available in four finishes: the smooth Glossy White with Chrome brassware adds a crisp, fresh look to the piece; Off-White with Chrome brassware offers an updated twist on a classic, elegant finish; warm Greige with Greige brassware lends a discreet, sophisticated air; and the Nero finish with Nero brassware adds a bold, contemporary feel.

Air jets: 20

Air massage type: Continuous

Bath height with mounted panel (mm): 600

Border for faucet

Control type: Electronic pushbutton

Cromotherapy

Drain: Included
