

This impressive floating vanity is the iconic highlight of the Baia collection. Featuring a fully integrated Surfex® washbasin in a matching Off-white finish, its seamless lines and elegant towel rail instantly endow any bathroom with an undeniable touch of luxury. It has Push&Pull side cabinets integrated into the legs and two capacious metal-trimmed soft-close drawers at the front, making it as well-designed as it is functional. The metallic trim and lateral Greige towel rails that follow its contour emphasize the classic sophistication of the unit.

Base unit / Closing and opening system: Push to open
